## 25 Years of Expertise in Metal Transformation – A New Sales and Marketing Structure for Groupe P. Bolduc

This year marks a major milestone for **Groupe P. Bolduc (GPB): 25 years of expertise in metal transformation** and the opening of a new **120,000 sq. ft. facility**. Since our founding, we have grown thanks to innovation, commitment, and collaboration with our partners.

Today, we celebrate this anniversary by announcing a **new sales and marketing structure**, designed to better support our clients and strengthen our presence across North America and beyond.

### A Group Structured into Four Complementary Divisions

Groupe P. Bolduc is organized around four divisions, each recognized for its know-how and innovative capacity in its field:

- **Plate 2000 Inc.** – Manufacturer of mechanical tools for concrete finishing.
- **P2K Athletik** – Specialist in the manufacturing of indoor and outdoor hockey rinks as well as sports equipment.
- **Plate 2000 Fabrication** – Industrial project partner, specialized in subcontracting and mechanical assembly.
- **Usitech 2000 Inc.** – Expert in high-precision machining of parts.

Together, these divisions embody the Group's strength: **diversified expertise, recognized capacity for innovation, and a deep commitment to excellence, its employees, its clients, and its community.**

## Plate 2000 Inc. – Innovation in Concrete Equipment

As part of this restructuring, we are pleased to welcome three new sales representatives to our Plate 2000 Inc. division, specialized in the design and manufacturing of concrete equipment:

**Robert Thompson**  
Midwest & Western  
United States

**Brian Phillips**  
Southeastern  
United States

**Sean McIlravey**  
Canada (Ontario),  
Great Lakes region, and  
New York State (USA)

## Plate 2000 Fabrication & Usitech 2000 – Specialists in Metal Fabrication and Welded Subassemblies for OEMs

These divisions focus on the transformation of mechanical and hydraulic assembly projects, with extensive capabilities in **laser cutting, CNC bending, rolling and forming, welding, sandblasting, and painting**, combined with advanced expertise in **CNC machining**.

They thus offer **turnkey solutions for OEMs** in the energy, construction, transportation, and defense sectors.

P. BOLDUC

**Bernard Bouffard** – Sales Representative for Canada

## **P2K Athletik – Manufacturer of Rink Systems and Equipment for Sports & Recreational Facilities**

Finally, with **P2K Athletik**, dedicated to the design and manufacturing of high-performance sports and recreational equipment, we are pleased to introduce:

**Vincent Lanoie** – Sales Representative for Canada

Their mission will be to support our growth initiatives, provide tailored solutions to our clients, and ensure greater field presence for direct and personalized support.

In addition, our Marketing Director, **Cyrielle Bergues**, will lead new initiatives to increase our visibility and strengthen our relationships with partners.

GROUPE  
P. BOLDUC

Our President, **Patrick Bolduc**, will continue to oversee the Eastern United States, the Mid-Atlantic region, and Quebec for the Plate 2000 Inc. division, ensuring continuity with our loyal partners while supporting the entire team in business development across all divisions.

We are confident that the **expertise, dedication, and specialized knowledge** of our team will help strengthen collaboration and create new opportunities for growth in North America and beyond.
